Are you a continuing Delegate? <input type="checkbox"/> Yes <input type="checkbox"/> No If yes, how long have you served as a Delegate? <u>2</u>	

Why are you interested in becoming a Delegate? Please describe the skills and experiences you would bring to the Delegate Assembly.

My interest to be a delegate is to continue to provide a better education for our children. Being a delegate I have learned of the many obstacles that schools may have in funding and finding qualified teachers. I believe all children should be given an opportunity to rise to their highest potential. Learning and being able to influence State government is crucial in obtaining this goal

My experience as a citizen being born, raised and going through our own school systems in Brawley, provides a better insight into what our children have done in the past and what they can accomplish now. The youngest of ten children, non-English speaking parents, and having 5 of us receive bachelor degrees and 3 associate degrees are an example of what can be done. I currently hold a CPA license, that illustrates fiscal, analytic, focus and tenacity in getting things done

Please describe your activities and involvement on your local board, community, and/or CSBA.

As a member of the board, I have served as president for 4 terms over the 17 years of serving providing direction in enhancing the services provided to our children. I serve as a member of the LCAP committee and have served on the English Learner committee for over 4 years. As a member it is my duty to be informed and knowledgeable of the LCAP and our districts plans to teach our students. Currently I have been the drive behind forming committees to address our 40% English Learner population and another for the shortage of facility space for the overcrowding in our schools. In our community, I have been a member and donor of one social service club and one civic club that provides scholarships to our students, Christmas toy drives and social and civic awareness functions. In CSBA, I keep current on issues and legislation that affects our students. Attendance at the Spring and Winter sessions for CSBA, where I offer opinions and information pertinent to our district which is obtained from BESD staff as they are working in the "trenches" and are more directly aware and impacted by State level decisions on funding and teaching strategies and expectations.

What do you see as the biggest challenge facing governing boards and how can CSBA help address it?

The biggest challenge facing governing boards is the funding for schools. As mentioned in some our delegate assembly committees, schools are expected to do more with less money, i.e. provide transportation, mental health services, safety, and to provide a top quality education with standards. One idea would be to fund those items (transportation, mental health, safety) outside of the LCAP. CSBA could research and lobby for this. CSBA has the resources and expertise to also develop other plans. I believe awareness in our community, our people of this deficit in monies could also be done by CSBA by sending flyers to the general population in California.
